

Summer Screenwash

A powerful screen wash for summer use to get rid of flies and dirt, quickly and easily.

Carburettor Cleaner

A special carb cleaner to remove gum, lacquer and general deposits from the carburettor and air intake manifold.

Insect Remover

Specially developed to remove squashed insects from bodywork, headlights and windscreens. A second application may be required for more stubborn insect remains.

Helmet & Windshield Cleaner

An effective cleaner to remove squashed insects quickly and easily from your helmet visor and screen. A second application may be required for more stubborn insect remains.

Winter Screenwash -50° Ready-to-use

A concentrated screenwash to remove winter dirt and salt, with special additives to prevent the windscreen and nozzle freezing in temperatures as low as -50°.

Winter Screenwash -22° Ready-to-use

A concentrated screenwash to remove winter dirt and salt, with special additives to prevent the windscreen and nozzle freezing in temperatures as low as -22°.

Bike Wash

A simple-to-use, multi-surface cleaner specially developed to keep your bike in tip top condition. PRO Honda Bike Wash is safe to use on all surfaces and components, including polished alloys, plating, paintwork, rubber and plastics. It's also an effective de-greaser and shampoo for the easy removal of traffic film, salt, brake dust, oil and grease.

Chain Cleaning Gel

To keep your chain operating effectively and to protect it against wear, it needs cleaning, as well as lubrication. PRO Honda Chain Cleaning Gel penetrates deeply and adheres to the chain during the soaking process. It's easy to use and is safe for O/X/Y-ring chains. To maximise chain protection, use PRO Honda Chain Spray to lubricate after cleaning.

Fuel Stabilizer

The PRO Honda Fuel Stabilizer is ideal for engines that are only run occasionally or in long-term storage. It keeps fuel in optimum condition and prevents the build up of deposits.

PTFE Multi Spray

A multi-purpose lubricant with special PTFE additives to protect all kinds of metal against moisture and corrosion. PRO Honda PTFE Multi Spray penetrates the finest of pores and has superb anti-friction properties.

Paint & Plastic Polish Spray

An easy-to-use polish spray that cleans, renovates and protects all painted and plastic surfaces, plus chrome and aluminium. It finishes to a deep lustre, leaving no streaks, spots or greasy film. PRO Honda Paint & Plastic Polish Spray is also non-abrasive and dries to a hard wax finish.

Bright Metal Polish

For long-lasting protection and a deep, durable shine, PRO Honda Bright Metal Polish is ideal. Leaving the surface water-repellent, it also protects against rust and corrosion.

Brake Cleaner

The quick and easy way to remove brake dust, fluid, oil, grease and other contaminants from brake and clutch systems.

PTFE Chain Spray

A high-quality, moisture-repellent lubricant with unique adhesive power and superb penetrative qualities.

Motorcycle Engine Shine

After cleaning, give all parts of your engine a deep, water-repellent gloss finish that protects against rust and corrosion. Suitable for all engine surfaces, including plastic, rubber and metal.

Exterior Plastic Renewer

A specially-developed, silicon-free blend of refined mineral oils and greases that creates a water-repellent, transparent layer to protect all plastic and rubber surfaces from traffic film and other damaging external elements.

Coolant Ready-to-use

Offering protection against corrosion, as well as temperatures down to as low as -36°, PRO Honda Coolant protects all kinds of metals used in modern Honda engines and cooling systems.

Wash & Wax Shampoo

A gentle cleaner with care additives that will dry without spots and with the minimum of effort. It's easy on your paintwork and offers superb protection against the worst of the weather.

Honda Gloss Protect

After washing your car, give it a protective, hydrophilic layer with Honda Gloss Protect. Dirt just rinses off with clear water and the protective layer maintains the paint's natural deep lustre. One set will give enough protection for 16 D-segment saloon cars.

Cockpit Spray

Superb cleaning performance that will leave all treated surfaces with a shiny wax film for that just-polished finish.

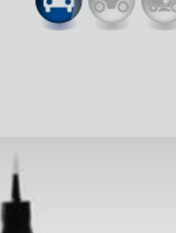

Tyre Shine

The perfect way to restore gloss and lustre to your tyres and protect them against the elements. The PRO Honda Tyre Shine is water-based and silicone-free to keep your tyre walls supple and in showroom condition.

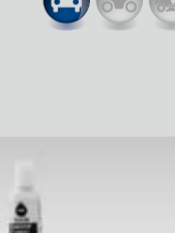

Quick Paint Polish

A carefully-selected blend of waxes and resins allows PRO Honda Quick Paint Polish to give a rich and deep shine to all types of car paints.

Hondalock 3

A high-strength, green-coloured threadlock for semi-permanent and/or high-torque fasteners. Helps to retain gears, bearings and pulleys to their shafts.

Handgrip Cement

A specially-developed heat resistant glue, which is also recommended for the installation of heated grips.

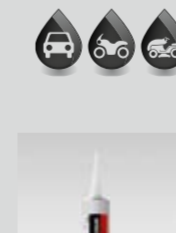

Showroom Polish

A versatile, multi-purpose polish to bring the lustre back to your pre-cleaned Honda. It removes fingerprints and dust and restores the paintwork's natural sheen. PRO Honda Showroom Polish is non-abrasive and ideal for a variety of surfaces, including paintwork, plastics and chrome.

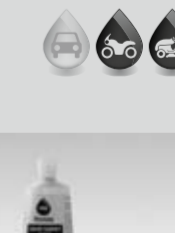

Ultra Leather Cleaner

Cleans deep down – right into the grain of your leather upholstery and other leather surfaces without staining or altering the original colour.

Windshield Glass Adhesive

A highly-advanced adhesive for installing a new windshield in the car, giving a perfect seal that's watertight and airtight.

Liquid Gasket 1216E

A highly effective sealing agent for crankcases, mission cases, oil pump cases, joint parts of oil pans and head covers. As well as being resistant to oil and heat, it is also solvent-free.

Wheel Cleaner

An extremely effective cleaner for all alloy wheels that quickly removes all brake dust, oil, dirt and other contaminants. Its unique formula means it penetrates quickly, getting to work fast and making the job easier.

Ultra Leather Care

Protect your leather and preserve its natural suppleness with PRO Honda Ultra Leather Care. It penetrates deeply, feeding the leather to prevent cracking and ageing, while special additives protect against bleaching by ultra-violet light.
